Professional Summary

Passionate and detail-oriented final-year Computer Science student with a strong foundation in Web Development, Java, and DSA. Known for delivering clean, intuitive, and responsive user interfaces with a strong sense of UI/UX design. Eager to contribute to real-world projects that blend functionality with great user experience.

Education

B.E - Computer Science & Engineering

Atria Institute of Technology, Bangalore | Year 4 | Sem VII | CGPA: 8.4 | Expected Graduation: June 2025

Technical Skills

- **Languages:** JAVA, C, JavaScript
- **Frameworks/Libraries:** ReactJS, FastAPI, Bootstrap
- **Tools/Technologies:** HTML, CSS, Git, GitHub, Figma, REST APIs, MongoDB

Projects

- **iNotebook – Personal Notes Saver**
Tech Stack: ReactJS, Express.js, MongoDB, Bootstrap
Built a full-stack notes-saving app with user login, sign-up and authentication, CRUD operations, and responsive UI. Designed reusable components and integrated RESTful APIs for persistent data storage.
What I learned: JWT authentication, React state management, backend integration with MongoDB, secure API calls.
GitHub: github.com/thisiskushalj/inotebook
- **NewsNow – Live News Fetcher**
Tech Stack: ReactJS, NewsAPI, Bootstrap
Created a responsive news app using React and NewsAPI to display live news articles categorized by topic. Implemented infinite scrolling, loading spinners, and routing with React Router.
What I learned: API integration, React props & state handling, dynamic routing, responsive layouts.
GitHub: github.com/thisiskushalj/newsnow
- **Weatherly – Weather Forecast App**
Tech Stack: HTML, CSS, JavaScript, OpenWeather API
Developed a weather forecast app that displays current weather conditions for searched cities using real-time API data.
What I learned: Working with external APIs, DOM manipulation, async/await in JavaScript.
